Telephones

POWER. PERFORMANCE. VERSATILITY.

Advanced IP Telephones That Help You Work Smarter

Step up the efficiency and functionality of your IP communications system with the IP5000 Series telephones from Toshiba. Sleek good looks combine with sophisticated features and call-handling enhancements for increased productivity in any office setting. Equally suited to a single location or large, distributed enterprises with branch or virtual and remote sites, the IP5000 Series is your best choice in a full-featured IP telephone system.

Each model offers:

- Integrated Gigabit Ethernet switch for fastest access to high speed network connections
- Large, backlit display for superior readability in variable light environments
- Sleek low profile design and unique tilt-base for versatile phone placement

Off Hook Call Announce
through speaker or handset

Full duplex speakers
for superior sound

Sleek, functional styling

Improve your office ergonomics with the slim profile and unique tilting base that adjusts to eight perfect angles.

- Onscreen prompts that help you complete common tasks
- Programmable one-touch buttons for fast access to calling functions
- Full-duplex speakerphone
- HTML and Java support with customizable applications
- Integrated Headset Interface
